Membership & Qualifications

Welcome to Heard Ltd

Heard Limited is an independent family run business with an outstanding reputation for quality, reliability and excellent service.

Formed in 1997 by a late member of the Heard Family, the company has been involved in a wide variety of industry sectors including; Steel Dismantling and Erection, Scrap Metal Recycling and the Waste Industry since the mid 1950's.

More recently Heard Limited has grown to become one of the industry leaders in industrial and commercial demolition and dismantling.

Our company ethos is to work very stringently to all health and safety standards as well as adhering to the latest government legislation and moreover we constantly benchmark ourselves according to the guidelines we set out in our own health and safety and environmental policies.

As a family run business we know the importance of remaining dedicated to providing a tailored, professional service to each and every one of our clients.

We run a modern fleet of specialised and purpose built equipment, ranging from small utility vehicles through to state-of-the-art heavy industrial plant and machinery all of which is maintained and operated by competently trained operatives. In addition we employ a workforce of friendly, knowledgeable staff who offer years of experience and are focused on maintaining quality processes and providing a complete understanding of complex project requirements.

All this is backed-up with efficient account management and an approach to our industry that is unsurpassed.

Heard Limited offer complete capability from one-off projects, through to ongoing corporate contracts and regardless of the project undertaken, we always offer the same high level of personal service and commitment which inevitably leads to complete customer satisfaction.

Health & Safety

In a world where health and safety standards vary greatly, Heard Limited provides one constant excellence.

Regardless of the size, type or location of the project, our standard of service always remains the same. This means we ensure maximum possible safety for the work force, the community and the environment at large.

Being serious about health and safety means being serious about training and at Heard Limited a comprehensive, on-going training is part of our everyday culture.

All operatives, from office staff to senior management are involved in all aspects of training including; one-to-one equipment training and the latest demolition techniques.

All work complies with latest UK legislation and government health and safety policies

All employees are fully trained to work within guidelines laid down by the Construction Skills Certification Scheme (CSCS).

Our Services

Heard Ltd are a specialist contractor whose core business activities within the construction industry include:

- Demolition & Dismantling
- Bulk Excavation
- Land Remediation
- Plant Hire
- Strip Out Works
- Concrete Crushing
- Waste Management
- Asbestos Removal and Surveying
- Material Haulage

We undertake all domestic, commercial and industrial contracts and predominantly work for "blue chip" organisations.

We have been involved in many projects of varying scales from domestic properties to large scale demolition and clearance of council estates and large industrial factories.

We have also been involved in steel dismantling and Facade retention projects.

We also pride ourselves on our work involving prestigious inner city projects, where safety and professionalism is paramount.

Other Services

Other services include the purchase of properties for reclamation & building materials.

Through these projects we can also supply second hand and reclaimed building material which we offer for sale to trade and public customers.

Additionally we offer a plant hire service providing hire of excavators from 1 - 90 tons as well as operating a fleet of waste disposal vehicles capable of moving large quantities of waste.

We can also provide a full compliment of specialist demolition and breaking attachments ranging from hydraulic precision processors through to high-power concrete breakers.

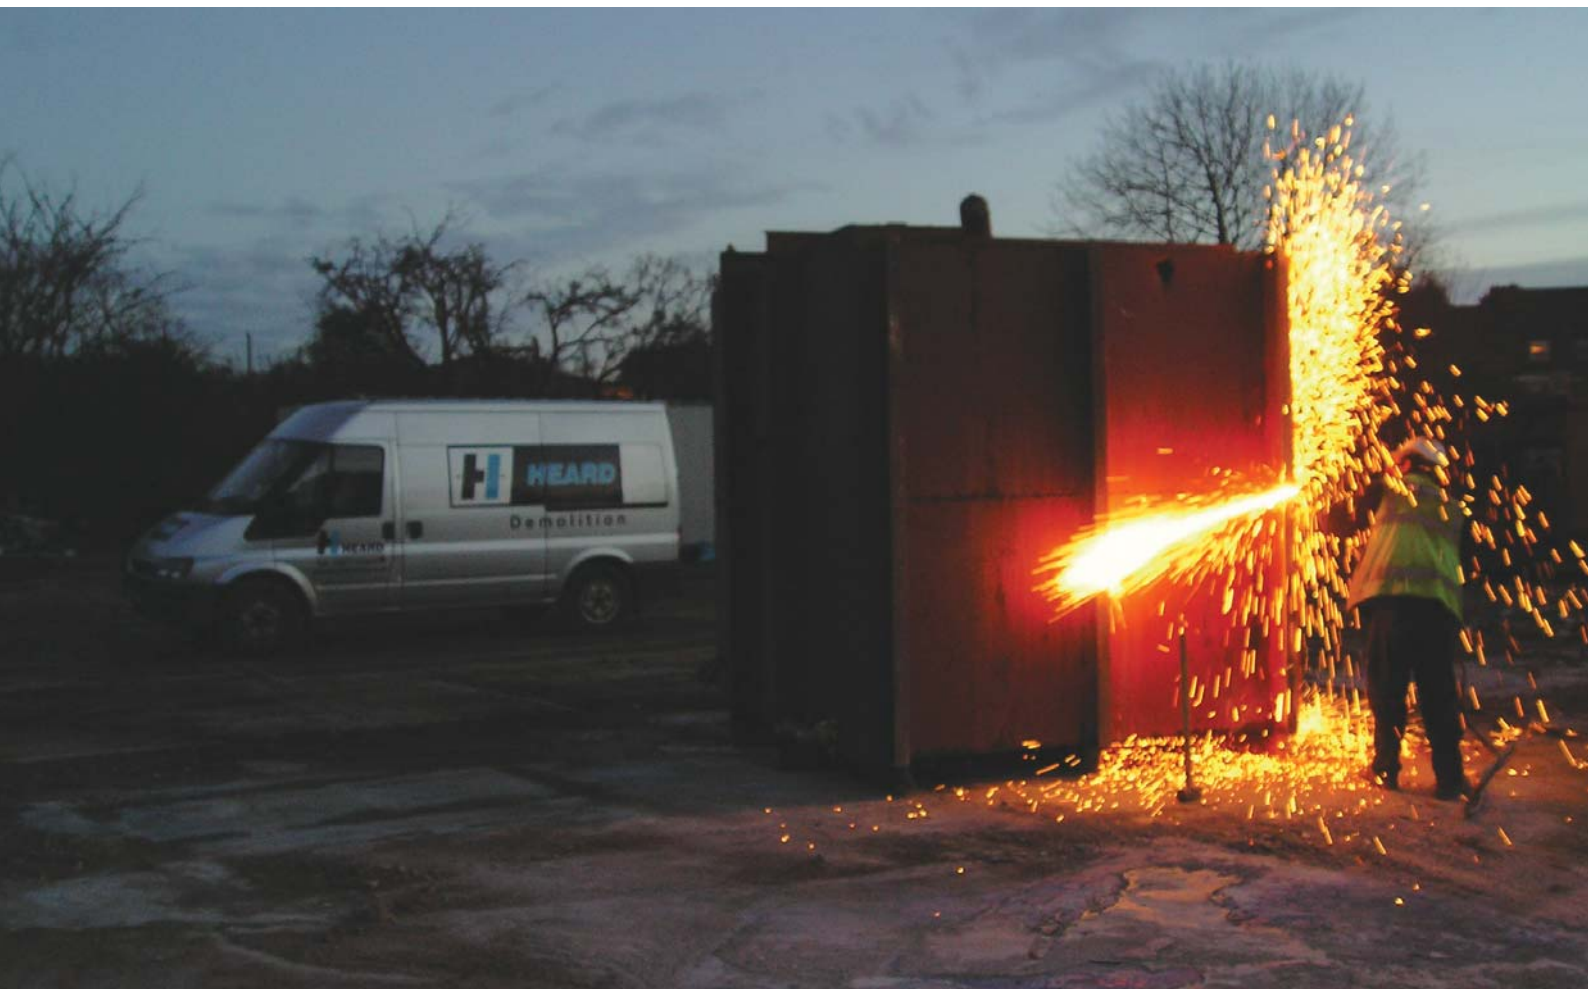

We offer a nationwide service from our premises in Essex and East London.

We are fully insured for all aspects of our work and we offer a full consultancy and feasibility service to all our prospective customers before any work is carried out.

Equipment

- Excavators 1 - 90 Ton
- Breakers 1 - 40 Ton
- Shears
